**Description**

The ACP-130 is the panel mount standard size display version of the Annunciation Control Panel. This unit is suitable for mounting directly into millwork, custom 19” rack mount panels, and other consoles. It provides alarm, point monitoring, and call signaling device notification for locations where audio communication is not required. Control panel functions permit the ACP to acknowledge, cancel, and reset incoming alarms and to monitor, activate and deactivate executable control points.
